

KSHITIZ RAY

Mechanical Design | Mechatronics Engineering Student

Bhubaneswar, India | +91-7762865002 | kshitizray77@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Mechatronics Engineering student with strong interest in mechanical design, product development, and smart manufacturing systems. Skilled in CAD modeling, mechanical assemblies, robotics integration, and embedded systems. Hands-on experience implementing industrial robotic systems and building automation and IoT-based engineering projects. Seeking internship opportunities in mechanical design and engineering development.

EDUCATION

B.Tech – Mechatronics Engineering, KIIT University, Bhubaneswar (2025 – Present)

Diploma – Mechatronics Engineering, NTTF RD Tata Technical Education Centre (CGPA: 7.82, 2021 – 2024)

Matriculation, RKMS Jamshedpur (71%, 2021)

TECHNICAL SKILLS

Mechanical Design	SolidWorks, Siemens NX, Fusion 360, MasterCAM
Manufacturing	Mechanical Assembly, MIG Welding, Additive Manufacturing (3D Printing)
Robotics & Automation	FANUC ARC Mate, FANUC LR Mate, Elite Cobots
Embedded Systems	Arduino, ESP32, Raspberry Pi
Sensors	Temperature, Ultrasonic, IR Sensors, Reed Switch
Engineering Tools	Ultimaker Cura, Arduino IDE, TinkerCAD

WORK EXPERIENCE

Junior Project Engineer (Intern) – COTMAV Robotics & Automation (Sept 2024 – Mar 2025)

- Assisted in implementation of FANUC industrial robots in manufacturing environments.
- Supported installation, mechanical setup, testing, and commissioning of robotic systems.
- Contributed to automation projects for Endurance, Studs Helmets, Highco Engineering Works, Arvind Mill, and RKFL.
- Worked with robotic welding and spray painting automation systems.

PROJECTS

Delta 3D Printer Design – Designed and assembled delta configuration 3D printer and optimized printing using Cura.

4-DOF SCARA Robotic Arm – Designed robotic arm with four degrees of freedom including mechanical joints and actuators.

IoT Weather Monitoring System – Built sensor-based environmental monitoring system using microcontrollers.

ESP32 Smart Home Automation – Developed Wi-Fi enabled system for remote appliance control.

CERTIFICATIONS

International Diploma in Mechanical Engineering – Mechatronics & Smart Manufacturing (Level 5)

NSDC Technician – Instrumentation (Level 4)

NSDC Certified Wireman – Control Panel Electronics (Level 3)

Autodesk Design Certification

ACHIEVEMENTS

1st Rank – Youth Skill Competition

Interstate Design Challenge 2025 – Twintech Engineering & Autodesk

Autodesk Skill Surge Design Competition – Participant

Technical Project Model Display – Tata Steel Technical Institute
